Subject: Lab Pack Profile Template
Date: Friday, June 15, 2018 2:45:40 PM

Good Afternoon Shannon,

Hope your Friday is treating you well!

A quick introduction, my name is Chris Genuardi and I am a new employee with Colorado Springs Utilities working in the Regulatory Services department with Ann Burdett.

I wanted to reach out to you because one of our facilities is in need of disposing elemental mercury in the quantities and containers listed below. Does Veolia provide a lab pack waste profile template I can utilize to begin the process, or is there another option available? I would like to have the profile complete and sent to you for approval by the middle of next week. In addition, we would like to ship the waste within the next few weeks. Any assistance you can provide would be greatly appreciated and I look forward to hearing from you!

1 poly bottle has a glass vial with about 10 mls of Hg
1 poly bottle has a glass vial with about 20 mls of Hg
1 poly bottle has about 2289.1 gm of Hg (~ 5 lbs)
1 glass bottle has about 30 lbs of Hg

Thank you,

Chris Genuardi
